PROJECTS

Car Prices Prediction | Personal

Feb 2024 - Current

- Developed car price prediction in *Python* using RandomForestRegressor
- Utilized Pandas for dataset manipulation and LabelEncoder for preprocessing
- Employed scikit-learn library for machine learning

Automated Download Organizer | Personal

Dec 2023 - Jan 2024

- Created a *Python* script to automatically organize downloads
- Used Watchdog library for real-time folder monitoring

Aim Trainer Game | Personal

Jan 2022 - Jan 2022

- Ensured accessibility with semantic *HTML* elements and alternative text
- Organized *CSS* structure for code readability and maintenance
- Applied *JavaScript* script for game logic, circle movement, score tracking, and music toggling
- Utilized *jQuery* for enhanced interactivity and responsiveness

WORK EXPERIENCE

Fryer/Delivery Driver

Rochester, NY

Mark's Pizzeria

Jun 2022 - Feb 2023

- Maintained cleanliness in dining and bathroom areas, assisted in food prep.
- Excelled as a multitasking fryer, delivering high-quality food and service.
- Prioritized safety and efficiency, keeping delivery vehicle clean for faster deliveries and adhering to traffic laws.

Sales Associate

Rochester, NY

Kohl's

Jun 2021 - Dec 2021

- Assisted 30 customers per shift, providing information for an enhanced shopping experience.
- Demonstrated exceptional efficiency in replenishing and organizing products.
- Conducted training sessions for new staff on machine and device operation for job proficiency.
